Introduction

Introduction

On April 1, 2000, the U.S. Census Bureau conducted the 22nd national census. The decennial census is the only national survey providing consistent, uniform measures and data for every geographic area in the nation. The results capture a picture in time of Utah; who we are, how we have changed, and the direction we are heading - demographically, socially, and economically.

Race and Ethnicity in Utah is the third in a series of Census 2000 Briefs to provide detailed analysis of Utah Census 2000 data. This report contains tables, figures, and maps showing current and historical population data by race and ethnicity for the U.S., and all 50 states, as well as Utah's counties, cities, census designated places (CDPs), and reservations.

Background

As a result of the revised standards for collecting data on race and ethnicity issued by the U.S. Office of Management and Budget in 1997, Census 2000 was the first national census in which respondents were allowed to select more than one race to indicate mixed racial heritage. The six new categories for race in Census 2000 are White; Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or other Pacific Islander; and Some Other Race. The "Some Other Race" category was included in Census 2000 for respondents who were unable to identify with the five other races. Respondents that selected more than one race are included in the "Two or More Races" category. The two categories for ethnicity include: Hispanic or Latino and Not Hispanic or Latino.

In 1990 Asian and Pacific Islander was a single race category. For comparisons of the 1990-2000 population in this report, the Census 2000 Asian, and Native Hawaiian or Other Pacific Islander categories have been combined.

According to the Census Bureau, the data collected from Census 2000 on race can be divided into two broad categories: the race alone population, and the race in combination population. Respondents who indicated only one race on the questionnaire are

referred to as the race alone population. Individuals that chose more than one of the six race categories are referred to as the race in combination population. The data and analysis presented in this report focuses on the race alone population when analyzing population changes that have occurred from 1990 to 2000.

While allowing respondents to report more than one race may provide a more accurate representation of the racial diversity of the country, it also means that data on race from Census 2000 are not directly comparable with data from the 1990 Census or previous censuses. Other factors also affect comparability of the 1990 and 2000 data on race and ethnicity. For example, in 2000 the question on Hispanic or Latino Origin was placed before the question on race, but in 1990 the order of these questions was reversed. This may have affected reporting on both questions.

Several tables in this Census Brief report population totals based on the "minority population." When calculating and analyzing census data on race and ethnicity, the Governor's Office of Planning and Budget defines the minority population as anyone other than White Alone Non-Hispanic.

United States

In Census 2000, over 281 million people were counted in the U.S., increasing 13.2% from 1990. This ten-year population increase was the largest in American history, with every state in the country experiencing growth, although to varying degrees.

Nationwide, the majority of respondents (97.6%) selected only one race on the Census 2000 questionnaire. Among those that selected one race, 75.1% were White, followed by Black or African American (12.3%), Asian (3.6%), American Indian or Alaska Native (0.9%), and Native Hawaiian or Other Pacific Islander (0.1%). Those that selected Some Other Race in 2000 accounted for 5.5% of respondents.

Among the nation's Asian population, the third largest racial group, most identified themselves as Chinese,

followed by Filipino, Asian Indian, Japanese, Vietnamese, and Korean. Most respondents in the Native Hawaiian and Other Pacific Islander category identified themselves as Native Hawaiian, followed by Samoan, and Guamanian or Chamorro.

The fastest growing race over the decade was the Asian-Pacific Islander category, which increased 46.3% nationwide. American Indian and Alaska Native was the second fastest growing race, increasing 26.4%, followed by Black or African American (15.6%), and White (5.9%).

The nation's Hispanic population increased 57.9% over the decade, from 22.4 million in 1990 to 35.3 million in 2000. Hispanics now make up 12.5% of the nation's population, surpassing Black or African Americans (12.3%) as the nation's largest minority group. In 1990, Black or African Americans accounted for 12.1% of the nation's population, while Hispanics made up only 9.0%.

Among the Hispanic population nationwide, Mexican continued to be the largest group, accounting for 58.5% of all Hispanics, followed by Puerto Rican (9.6%), Central American (4.8%), South American (3.8%), Cuban (3.5%), and All Other Hispanic (17.3%). Population growth varied among the Hispanic groups, with Mexicans representing the fastest growing group over the decade, increasing by 52.9%. Puerto Ricans increased by 24.9%, and Cubans by 18.9%.

State of Utah

Utah's population reached 2,233,169 in 2000, increasing 29.6% over the decade. Utah grew more than twice as fast as the U.S. over the decade, and was the fourth fastest growing state in the country.

The majority of Utahns (97.9%) selected only one race in 2000. Among those that selected one race, 89.2% were White. Asians in Utah were the second largest race in 2000, at 1.7%, followed by American Indian or Alaska Native (1.3%), Black or African American (0.8%), and Native Hawaiian or Other Pacific Islander (0.7%). Those that selected Some

Other Race accounted for 4.2% of respondents in the state.

The state's fastest growing race in the 1990s was the Asian-Pacific Islander category, which increased 56.6%, from 33,371 in 1990 to 52,253 in 2000. The Chinese were the largest group among the state's Asian population, followed by the Japanese, Vietnamese, and Korean. The fastest growing group among the state's Asians was the Vietnamese, increasing 113%, from 2,797 in 1990 to 5,968 in 2000.

The second fastest growing race in Utah over the decade was the Black or African American population, which increased 52.5%, followed by White (23.3%), and American Indian and Alaska Native (22.2%).

The Hispanic population in Utah increased 138.3% from 1990 to 2000, growing more than twice as fast as the Hispanic population nationwide. Hispanics, the largest minority group in the state, now make up 9.0% of the state's total population, compared to 4.9% of the population in 1990.

Mexicans continue to be both the largest and fastest growing group in the state, accounting for 67.7% of all Hispanics, and increasing 140%, from 56,842 in 1990 to 136,416 in 2000. South Americans were the second largest group in the state, accounting for 4.8% of Hispanics, followed by Central American (3.3%), Puerto Rican (2.0%), and Cuban (0.5%).

Utah's Counties

All of Utah's 29 counties experienced population growth in the 1990s, ranging from a high of 91.6% in Summit County, to a low of 1.0% in Carbon County. Summit County ranked 8th among counties nationwide in population growth over the decade. Washington County, which grew 86.1% from 1990 to 2000, ranked 12th in the nation.

Among Utah's counties in 2000, Salt Lake, Davis, and Weber housed 85% of the state's Black or African Americans, 79% of the Asian population, and 37% of the American Indian and Alaska Natives in the state.

San Juan County was home to 27% of the state's American Indian or Alaska Natives. The majority of the state's Native Hawaiian and Pacific Islanders, or 73%, lived in Salt Lake County in 2000.

Summit County had the fastest growing Hispanic population (638%) over the decade, growing almost five times the state rate, and ten times the U.S. rate. With the exception of Carbon County, where the number of Hispanics actually decreased (-6.7%), all of Utah's counties experienced significant increases in Hispanics. Washington County, with the second fastest growing Hispanic population, increased 448.4% from 1990 to 2000, followed by Piute (326.7%), Garfield (288.6%), Iron (262.0%), and Cache (225.1%).

In Weber County, Hispanics made up 12.6% of the total population in 2000, the largest percentage among counties, followed by Salt Lake (11.9%), Carbon (10.3%), Tooele (10.3%), and Summit (8.1%). In 1990, Carbon and Tooele led the state, both at 11.1%, in the number of Hispanics as a percent of their total population. Only 6% of the population in Salt Lake County was Hispanic in 1990.

Utah's Cities

The majority of Utah's cities and towns experienced population growth from 1990 to 2000. The City of Draper, in Salt Lake County, led the way among the state's largest cities (greater than 9,000). Draper more than tripled in size from 1990 to 2000, increasing by 18,000 people, or 248%. Several other of the state's largest cities, all located along the Wasatch Front, doubled in size over the decade, including South Jordan (141%), Lehi (125%), Riverton (122%), and Syracuse (102%).

As a percent of the total population in cities in 2000, Scofield in Carbon County and Woodruff in Rich County ranked first with Whites, accounting for 100% of the population in those cities. Clearfield in Davis County had the highest percent of their population (3.6%) as Black or African American in 2000. Blanding in San Juan County ranked first among cities with 28.9% of their population as American Indian or Alaska Native. Ophir in Tooele

County and West Valley City in Salt Lake County ranked first in 2000 with Asians, accounting for 4.3% of the total population in those cities. West Valley City also ranked first among Utah's cities with the highest percent of their total population (2.9%) as Native Hawaiian or Pacific Islander in 2000.

Among the Hispanic or Latino population in Utah's cities, Wendover in Tooele County had the highest percent of their total population (68.6%) as Hispanic in 2000, followed by Ogden in Weber County (23.6%), South Salt Lake in Salt lake County (22.4%), East Carbon in Carbon County (20.8%), Midvale in Salt Lake County (20.8%), and Moroni in Sanpete County (20.5%).

Utah's Census Designated Places (CDPs)

Census Designated Places (CDPs) are delineated for each decennial census as the statistical counterparts of incorporated places. CDPs are delineated in order to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located. The boundaries usually are defined in cooperation with the local or tribal officials. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary.

Among the state's largest CDPs (greater than 9,000), the Kearns CDP had the largest number of minorities as a percent of the total population (26.6%) in 2000, followed by the Magna CDP (19.4%), Oquirrh CDP (18.1%), Millcreek CDP (17.8%), White City CDP (11.5%), Cottonwood West CDP (9.3%), Cottonwood Heights (8.2%), and East Millcreek (6.4%).

Utah's Indian Reservations

Among Utah's seven reservations in 2000, the Uintah and Ouray Reservation had the largest population (19,182), followed by the Navajo Reservation (6,373), Ute Mountain Reservation (277), Paiute Reservation (270), Goshute Reservation (90), Skull Valley Reservation (31), and Northwestern Shoshoni Reservation (0).

The Ute Mountain Reservation had the largest number of American Indian or Alaska Natives as a percent of the total population (98%) in 2000. The Navajo Nation Reservation had the largest number of American Indian or Alaska Natives (6,208) living on the reservation in 2000, as well as ranking second in American Indians as a percent of the total population (97%).

The Uintah and Ouray Reservation had the largest number of Whites as a percent of the total population (81%) in 2000, and the smallest number of American Indian or Alaska Natives as a percent of the total population (14%). The Uintah and Ouray Reservation also had the largest number of Hispanics (673), Black or African Americans (25), Native Hawaiian and Other Pacific Islanders (19), and Asians (33) living on the reservation in 2000.

The Paiute Reservation had the largest number of Hispanics as a percent of the total population (13%) in 2000.

Additional Information

American FactFinder. American FactFinder (AFF) is a dynamic search feature on the U.S. Census Bureau's web site that allows users to access Census Bureau data quickly and easily.

AFF offers data from Census 2000, the 1990 Census, the Economic Census, and the American Community Survey. To access the American FactFinder go to <http://factfinder.census.gov/servlet/BasicFactsServlet> or to the Census Bureau's web site (www.census.gov) and click on "A" or the American FactFinder.

State Data Center. Electronic versions of tables and figures in this report are available by contacting the Utah State Data Center staff at (801) 538-1036. Census 2000 data for the state of Utah is available on the Demographic and Economic Analysis web site at www.governor.state.ut.us/dea. Census 2000 Briefs will be posted in pdf format on this site as they become available.

Note:

1. Census 2000 respondents were allowed to select more than one race, therefore 1990 and 2000 census data are not directly comparable.

2. The "Some Other Race" category was added for those who were unable to identify with the five other race categories.

3. Hispanic or Latinos may be of any race.

Notes:

1. This table shows the difference between the population by race alone in 1990 and the population by race alone in 2000. Because Indians could only report one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable.
2. In 1990, Asian and Pacific Islander was a single category. For comparison, the 1990-2000 population table for the Asian or Pacific Islander population has been combined.

1. "-" Represents zero or rounds to zero.

2. This table shows the difference between the population by race in 1990 and the population by race alone in 2000.

Because individuals could only report one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable.

Percent Change by Race and Ethnicity in Utah and the United States: 1990-2000

Notes:

¹ In 1990, Asian and Pacific Islander was a single race category. For comparisons of the 1990-2000 population, the Census 2000 Asian, and Native Hawaiian or Other Pacific Islander categories have been combined.

² The data and analysis on race presented in this graph focuses on the Census 2000 race alone population when discussing changes that have occurred from 1990-2000, and are therefore not directly comparable with race data from 1990.

³ Hispanic or Latino may be of any race.

Notes:

1. This table shows the difference between the population by race in 1990 and the population by race alone in 2000. Because individuals could only report one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable.
2. In 1990, the American Indian and Alaska Native population was characterized as "American Indian, Eskimo, or Aleut."

Woods Cross city	Davis County	6,419	570	5,849	8.9%	91.1%	61

Note:

1. When calculating and analyzing census data on race and ethnicity, GOPB defines the "minority population" as anyone other than White Alone Non-Hispanic.

2. The Utah Population Estimates Committee provided April 1, 2000 population estimates for the following areas: Hanksville, 240; resulting Balance of Wayne County, 986; Hooper, 4,081; resulting Balance of Weber County, 13,694; West Jordan, 78,714 and Taylorsville, 58,764; resulting Balance of Salt Lake County, 197,939. In the case of Salt Lake County, only the annexation increment impacts the Balance of County figure. The annexation increment for Taylorsville is 1,325, and the increment for West Jordan is 10.378.

Ute Mountain Reservation (Utah part)	277	275	3	0	272	0	0	0

* 327 live on Off-Reservation Trust Land

Note:

¹ The (Utah part) indicates the reservations that overlap other states. Population totals of these reservations are as follows: Goshute Reservation, 105; Navajo Nation Reservation, 180; Ute Mountain Reservation, 1,687.

² As a result of the revised standards for collecting data on race and ethnicity issued by the U.S. Office of Management and Budget in 1997, Census 2000 was the first national census in which respondents were allowed to select more than one race. Respondents that selected more than one race in 2000 are included in the "Two or More Races" category.

³ According to the U.S. Census Bureau, the "Some Other Race" category was included in Census 2000 for respondents who were unable to identify with the five other races.
